Dear Mark,

Thank you for taking the time, along with Geraint, to come and see me at my recent advice surgery.

I was very interested to hear of your plans for the Cross Inn, and was particularly impressed by the apparent level of expertise within your working group. It does sound like you have a significant backing to the project. I was pleased to hear of the considerable progress you have already made, with the launch of the share offer fairly imminent.

I do wish you and the rest of the team every success in this venture and I look forward, with interest, to hearing the continued progress in ensuring the community retain and pub and community facility.

Please do get back in touch if I can assist in any way going forward.

Kind regards,

Stephen
